

TEKASOL

Teflon grease

The product is intended for the lubrication of machines (preventive maintenance) in order to prevent friction among moving surfaces.

CHARACTERISTICS

It is designed to lubricate and protect surfaces against moist and impurities. It offers excellent protection against corrosion and extends time until next lubrication. When there's no more lubricant, the teflon takes over its role for some time. The lubricant is compatible with different types of plastic and does no harm to coloured surfaces. It is resistant to harmful acids and salt water. It is silicone free.

APPLICATION

The product is intended for the lubrication of machines (preventive maintenance) in order to prevent friction among moving surfaces like pivots, joints, all the moving parts ... It can be used at temperatures from -15°C to +150°C, temporarily also up to +200°C.

TECHNICAL DATA

Odour:	characteristic
Colour:	white
Temperature resistance:	from -15°C to +150°C, temporarily up to +200°C.

INFORMATIN FOR USE

Before application shake the can thoroughly. Apply the product onto a clean and dry surface. Keep the can 15 cm from the surface your applying the product on.

PACKAGING

- Aerosol can 400 ml

STORAGE

3 years (+10°C to +20°C)
Keep cans in the upright position.
